

INVITATION & REGISTRATION

**SD-Forum for Institutions of Higher Education / Korkeakoulujen Keke-foorumi:
26 - 27th October 2011 in Turku/Åbo**

“Integrating sustainability into all activities of universities - working seminar facilitated by Alan AtKisson”

This 2 days working seminar will introduce tools and processes for integrating sustainability and environmental considerations into all activities at institutions of higher education: increasing our general awareness, fostering staff and students, integrating education for sustainability into all subjects, integration of sustainability aspects into our quality management systems and daily practices; i.e. purchasing goods, computer-, travel-, cleaning and other services, energy use, waste management etc.

The seminar will be facilitated by [Alan AtKisson](#) who has a long and worldwide experience of arranging training courses on sustainability issues for representatives from large companies, organizations, cities, universities etc.

The participants will be introduced to AtKisson’s so called “ISIS Tools and Processes”, “Compass Education” and hands on “Change Agent Training” to empower individuals and different small groups (teachers and administrative staff at different levels) to start and maintain concrete actions towards sustainability.

Target group: University staff (education, administration, planning and other services), contact persons within the Finnish national forum for SD in Higher Education (“Korkeakoulujen Keke-foorumi”) and a restricted quota for partners within the Baltic University Programme Network.
